To Whom It May Concern,

Forma Group – Letter of Recommendation

Forma Group were appointed as Architect, Engineer and General Contractor for the fit-out of a new show suite at Vivaldi Plaza, Kogevnicheskaya 8/4, Moscow, Russia.

Forma Group provided a range of services including the development of concept, interior design, detailed architectural / engineering project and construction management. The project was a great success and the client team were pleased with the final product.

Members of the Forma team acted in a professional manner throughout, we were particularly impressed with their commitment to the project. The team came up with many ideas and solutions that enhanced the scheme, the management responded well to client changes, the commercial implications of which were agreed in an honest and timely way. The staff on site were competent and were able to deal with day to day issues that arose swiftly and with little impact to the programme.

We take this opportunity to thank Forma Group for their efforts on the project and would not hesitate to recommend them as a Professional Design and Build General Contractor for future schemes.

Yours Sincerely

Charles Cresser
Associate Director
Jones Lang LaSalle Project and Development Services
